JAIME FLORES JR.

906 East 8th St. · Mission, Texas · (956)-400-6427 · opiatamus79@gmail.com

OBJECTIVE

I am currently seeking a position as a Web Developer/Software Developer.

EDUCATION

The University of Texas at Rio Grande Valley, Edinburg, Texas   Graduated on: May 2017
Bachelor of Computer Science   GPA: 3.02

Relevant Coursework:
Intro to Computer Science, Computer Science I, Computer Science II, Algorithms and Data Structures, Networking, Database Design, Systems Programming, Algorithm Design, Software Engineering, Technical Communication, Senior Project, Linear Algebra, Calculus, Discrete Math, and Calculus II

EXPERIENCE

Perficientur Sense2Action: 200 S 10th St. , Mcallen, Texas
Web Developer (Full Stack)
- Contributed to multiple projects built using Express/Nodejs, PostgreSQL, and AngularJS/AngularCli using version control software such as BitBucket/Github.
- Gained experience in using Project Management software, such as JIRA, to plan projects, document on the progress of assigned tasks, and give an estimate on expected time to complete an assignment.
- Have created schemas/queries for PostgreSql and have also gained experience in noSql database such as rethinkDB and MongoDB.
- Have gained experience in developing Web Applications using Google Cloud framework.
- Gained knowledge on adding DNS/SSL to developed sites/Wordpress sites. I have also setup Digital Ocean servers that would have Wordpress installed.
- Have gained experience in QA testing and documenting issues that occur during rapid development.
- I have researched different apis (such as QuickBooks, JIRA, NightPro) and have contributed in integrating these apis to our companies main site.

Software Development Project: TakeOutBuddy.com, Mission, Texas
Lead Developer (Full Stack)
- Assisting a client with creating a website that will offer local businesses an online shop on one site.
- Developed Wordpress site and created an api using Express/Nodesjs . Api is designed to retrieve data from orders made on Wordpress site and extract/send relevant detail for each vendor involved in a single purchase.
- Have also been meeting the demands of many local shops and have looked at sending receipts to a location that will not have a computer on site, but will have a POS printer.

The University of Texas Rio Grande Valley (UTRGV): Computer Science Dept., Edinburg, Texas
Teaching Assistant
- Assisted professors with grading assignments and created spreadsheets to document the grades for either class.

- Would be able to assist students during office hours with any questions about the coursework and be responsible for managing equipment that was used during lab hours.
- Would need to test/repair equipment used for either class after lab hours.
- .

E-colors in Education: Dr. Mercado-Garza's office, Harlingen, Texas
<u>Intern</u>
- Helped with managing and editing content found on the site ecolorsineducation.org.
- Used CSS to make changes to the appearance of a premade theme found on the site.
- Attended meetings with my client to better understand what the company provides for students/teachers.

SKILLS

- Language Skills: Bilingual in English and Spanish: read, write and speak.
- Computer Skills: Have taken programming courses in University of Texas-Pan American which have consisted of C/C++ as well as assembly language based courses. I have programmed in a few scripting languages which include Perl, Python, Javascript. I have used SQL to create queries/schemas. While using MySQL I have been able to become familiar with how Oracle databases are managed. I am also familiar with Microsoft Office, Power Point, and Excel.
